EstateFlow ERP is designed for complex real estate and construction firms. This advanced construction software tracks projects in real time, eliminates costly delays, and automates workflows to enhance collaboration. It streamlines communication and enables your entire team to access the system anytime, from anywhere. With robust scalability, it seamlessly manages multiple projects—keeping operations running smoothly without chaos.

Key Highlights:

- **Real-Time Analytics** – Live project dashboards
- **Role-Based Access** – Secure, tailored permissions
- **Automated Invoicing** – Error-free billing
- **Multi-Project Support** – Manage all sites in one place

Detailed Description:

EstateFlow ERP is the all-in-one platform for real estate developers and contractors. Replace spreadsheets and siloed tools with AI-powered project costing, field collaboration, and financial controls—scaled for businesses of any size. Hosted on secure global cloud infrastructure with 24/5 support.

“EstateFlow has streamlined our operations, enhancing efficiency and accuracy. Have revolutionized our project management.

- Sheriff R., Mouna-Mo Construction (Verified User)
